

# ReadiGRAFT®

## Fascia Lata

### Clinical Overview

ReadiGraft Fascia Lata is a natural collagen scaffold that allows for integration with host tissues and ingrowth along the native fibers inherent to fascia. It is commonly used to supplement soft tissue repairs.

### Applications

- Supplemental covering or reinforcement for soft tissue repairs
- Dural replacement or repair
- Scleral substitute

### Features & Benefits

- **Increased Safety:** Sterilized using proprietary and patented Allowash XG technology. This technology provides a sterility assurance level of  $10^{-6}$ , without compromising the grafts inherent properties.<sup>1</sup>
- **Convenient:** Multiple size options allow surgeon to select appropriate graft for clinical procedure
- **Versatile:** Easy to trim and shape to perfectly fit surgical need.

## ReadiGRAFT Fascia Lata

Ambient Storage\*/5 Year Shelf Life

Description	Size	Order Code
Strip	3 x 150 mm (2 per pack)	FL STRIP
Small	30 x 60 mm	FL S
Medium	30 x 150 mm	FL M
Large	80 x 200 mm	FL L

\*While ambient room temperature has not been defined by regulatory bodies, LifeNet Health would recommend storage at 2°C to 37°C with excursions of less than 24 hours up to 40°C. If an excursion outside this range occurs, please contact LifeNet Health.

Instructions for use available at [LifeNetHealth.org/IFU](https://www.lifenethealth.org/IFU)
