LifeNet Health's global headquarters is located in Virginia Beach, Virginia. In 2006, LifeNet Health began providing stellar hospital development services in Florida, along with our commitment to returning tissue back to the communities from which it was recovered. To help meet the growing demand for tissue throughout the country — and the world — LifeNet Health established a presence in the Pacific Northwest in 2012. LifeNet Health established its European headquarters in Austria in 2017, creating a center of excellence to offer education and training around the use of allograft surgical solutions.
