The LifeNet Health Foundation

Vision: The LifeNet Health Foundation is a charitable organization that raises funds to support the Donor Family Services of LifeNet Health, awareness programs which promote the vital need for donation, and research development efforts surrounding transplantation.

The Goals of the LifeNet Health Foundation are…

- To support quality educational programs for the general public and the healthcare community regarding donation.
- To support Donor Family Services Activities, such as grief materials, workshops, newsletters and special events.
- To provide an avenue for individuals in the community to support the donation process through their monetary gifts.
- To support LifeNet Health's research and development initiatives that help to further our mission of Saving Lives, Restoring Health, and Giving Hope.

These Goals are not possible without the monetary support from partners like you and the precious time donated by our Volunteer Ambassadors. We invite you to join the LifeNet Health Foundation Family and Make a Difference!

UPCOMING EVENTS:

Blue & Green Day
Friday, April 17, 2020

During Blue & Green Day, the public is encouraged to wear blue and green, hold events and fundraisers, and partner with local restaurants, malls, media, and community organizations in an effort to promote the success of organ, eye and tissue transplantation and the extreme need for registered donors.

More information: https://www.donatelifedn.org/blue-green-day/
Share the Love 5K/1 Mile*
*NEW DATE: Saturday, Sept. 19, 2020

We have made the difficult decision to postpone the Share the Love 5K/1 Mile originally scheduled for Saturday, April 18, 2020. This decision has been made out of concern for participants, volunteers, LifeNet Health staff, and the community. We are now planning to host the race on **Saturday, Sept. 19, 2020**.

Please check your emails if you are already registered for options on how to participate on the new date.

Thank you for your understanding as we try to navigate keeping everyone healthy and safe. We appreciate your support of the LifeNet Health Foundation and our mission.
