

LifeNet Health Earns Prestigious ATD Excellence in Practice Award and Showcases Comprehensive Education Offerings

March 19, 2025 (Virginia Beach, VA) - LifeNet Health has been honored with the Association for Talent Development (ATD) Excellence in Practice Award for its groundbreaking leadership development program, LevelUp. This marks the second consecutive year that ATD has recognized LifeNet Health for its outstanding internal talent development initiatives. In 2024, the organization received ATD's BEST Award for fostering a culture of learning and driving enterprise-wide success through strategic talent development efforts. These accolades highlight the quality of LifeNet Health's programs and its commitment to continuous learning and professional growth.

As a leading nonprofit organization in regenerative medicine, LifeNet Health is also dedicated to expanding bioscience knowledge and education within the broader community. To support this mission, the organization offers a comprehensive suite of educational and training resources designed to drive innovation and excellence in healthcare.

These programs cater to a diverse audience, including healthcare professionals, purchasing managers, students, recovery teams, and employees. LifeNet Health offers continuing education (CE) courses, foundational education on tissue grafts through Allograft Academy, interactive online advanced learning via the BioEd Academy, customized residency programs, and hands-on recovery training.

Through these various learning opportunities, the organization empowers its healthcare partners with the knowledge and skills essential to enhancing patient outcomes, advancing medical research, and honoring the invaluable contributions of donors.

Empowering Healthcare Partners through Continuing Education

LifeNet Health offers free virtual and instructor-led [continuing education \(CE\) programs](#) for healthcare partners, addressing critical topics related to organ and tissue donation and transplantation. To attend in-person sessions, contact LNHCE@lifenethealth.org.

Open to the healthcare professionals, LifeNet Health's [Donation 360 webinar series](#) offers accessible CE programs throughout the year. Topics covered include Tissue Donation for Research, Conscious Communication, Compassion Fatigue. For a full listing, please use the link above.

Advancing Allograft Knowledge for Supply Chain Professionals

The [Allograft Academy](#) is an open-access resource designed to help healthcare supply chain professionals and those new to allografts make informed decisions. The Academy

equips purchasing teams with the knowledge to evaluate allograft options effectively, ensuring the best outcomes for patients and providers.

BioEd Academy & Programmatic Residency Programs: Advanced Learning for All

LifeNet Health offers flexible, interactive education for professionals at all levels, whether self-paced through [BioEd Academy](#) or customized didactic lectures for Residency programs. BioEd Academy offers an advanced online learning experience with interactive modules, progress tracking, assessments, and certificates of completion. Courses cover subjects such as allograft applications and safety, general anatomy and physiology, and biologic and graft options.

To request tailored, instructor-led Programmatic Residency programs, contact: ScientificAffairs@lifenethealth.org.

Innovative Training for Tissue Recovery Teams

LifeNet Health offers a diverse range of recovery training opportunities designed to equip recovery professionals with practical, hands-on training of best practices. The organization facilitates live and virtual training sessions throughout the year, led by LifeNet Health professionals. Upcoming training includes cardiovascular recovery and brain recovery for research.

For future recovery training details, contact your LifeNet Health representative.

Advancing Innovation and Honoring Donor Legacies

LifeNet Health's educational initiatives reflect its broader mission to drive innovation and enhance care through knowledge sharing and professional development. By providing cutting-edge training and fostering collaboration, LifeNet Health strengthens the continuum of care while honoring the legacies of donors whose gifts make life-changing transplants, therapies, and medical advancements possible.
