

DONOR REFERRAL

Call in all referrals within **60 minutes**

Call 1-866-LIFENET (1-866-543-3638)
press 1, then...

Press 1 for heart beating, ventilated patients to evaluate for organ donation.

These are patients meeting one or more of the following criteria:

- GCS of 5 or less, including sedated patients
 - Discussion of withdrawal of mechanical or pharmacological support
 - Anticipated brain death testing
 - Mention of donation, to or by the family
- Name, Age, Sex, and Race
- Unit and Phone Number MR#
- Admit Date and Diagnosis

Provide current medical history

(HIV/AIDS, HBV/HCV, Cancer, Dementia, Sepsis, etc.)

If the patient is not a candidate for organ donation, you will be asked to call at the time of cardiac death per the process on the right.

Press 2 for patients who have a pronounced time of death to evaluate for tissue/eye donation.

- Date and Time of Death or Last Seen Alive
- Clinical Course/Circumstances
- COD, ME case or Autopsy

Provide current medical history

(HIV/AIDS, HBV/HCV, Cancer, Dementia, Sepsis, etc.)

- Labs and X-Rays
- Next of Kin and Funeral Home Information

Additional information may be required for further screening

The discussion about donation will be facilitated by a LifeNet Health Coordinator specially trained to determine donor suitability and discuss donation options.
