To whom it may concern

Re: ViviGen shipper LNH item #60-0154

In regards to above mentioned shipper, LifeNet Health confirms that LifeNet Health has successfully conducted validation work per applicable ISTA and ASTM standards. These validations ensure that this shipper is capable of maintaining appropriate temperature for ViviGen tissues for period of 48 hours with a minimum of 11 lbs of dry ice as refrigerant.

These validations are captured in LifeNet Health protocol numbers 13-022 and 13-048.

For any further questions or clarifications I may be contacted via uzair_rajput@lifenethealth.org or via phone at 757 609 4754.
