

Thanks2You

—A Welder's Health is Restored

Dear Donor Family:

Thank you for the precious gift you bestowed in my life. I never would have thought on May 24, 2016 my life would change forever. I was welding and my clothes ignited. I received second to third degree burns. At 53, all I could think about was my wife, children and grandchildren. On June 3, 2016 after my donor surgery, my daughter flew in from Hawaii. She is active duty military at Schofield Barracks Army Base. Thanks to your unselfish donation, my grandson was put in my arms at the hospital. On June 20, 2016 I celebrated my wedding anniversary with my wife and my daughter graduates from high school today, as I am being discharged from Sentara Norfolk General Hospital.

Bless each and every one of you that have touched my life.

Sincerely,
Wallace
