MatriGRAFT®
Tricortical Patellar Wedge

Clinical Overview
Tricortical wedge, designed to provide immediate structural support and restore segmental bone loss

Applications
- Tibial Wedge Osteotomies
- Pelvic Osteotomies
- Foot & Ankle Arthrodesis

Why Use
- Osteoconductive: Natural osteoconductive scaffold allows for cellular attachment and vascular in-growth
- Structural: Tricortical plate provides immediate structural support
- 100% Human Bone: Will remodel alongside patient’s own tissue during healing process
- Sterile: Sterilized using proprietary and patented Allowash XG® technology. This technology provides a sterility assurance level of $10^{-6}$, without compromising the implant’s inherent osteoconductive properties
- Convenient: Implant is pre-sized to fit a variety of applications and minimize prep time in the operating room
