CardioGRAFT®
Pulmonary Patch Graft (Thick & Thin)

Clinical Overview
A human pulmonary artery patch graft for cardiac outflow tract repair and reconstruction

Applications
- Right Side/Pulmonary Reconstructions
- Tetralogy of Fallot
- Hypoplastic Left Heart Syndrome
- Truncus Arteriosus
- Transposition of the Great Vessels

Why Use
- Allograft tissue most closely resembles the patient’s native tissue
- Allografts are an alternative for patients lacking available autologous tissue
- Easy to handle and suture
- Safety: Allografts offer a high resistance to infection
