CardioGRAFT®
Mono Cusp Patch

Clinical Overview
Cryopreserved human pulmonary artery trunk with single leaflet used for cardiac repair and reconstruction

Applications
Tetralogy of Fallot, Pulmonary Atresia and Stenosis, Outflow Tract/Root Reconstruction procedures as a single leaflet valve

Why Use
- Natural ability to resist infection
- Alleviates the need for anticoagulation therapy
- Reduced thrombosis potential
- Allografts most closely resemble native tissue, making them compliant, flexible and easy to handle
