OraGRAFT®
Bi-Cortical Ilium Strips

Clinical Overview
The OraGraft product line is comprised of hard and soft allograft implants generally used for sinus augmentation, craniofacial reconstruction and correction of periodontal and ridge defects.

Applications
- Ridge Maintenance
- Craniofacial Reconstruction

Why Use
- Increased Safety: Sterile with an SAL $10^{-6}$
- Convenient Storage: Ambient Temperature with 5 year shelf life
- Easy of Use: Can be affixed to surgical site using standard bone screws, easily trimmed using standard instrumentation to expose cancellous located within cortical plates
